AJIRASAFE — TEST EVIDENCE

Fictional sample document for testing suspicious job report uploads

IMPORTANT: This is entirely fictional test data. The company, contact details, vacancy and payment request below are invented and must not be treated as a real job advertisement or allegation about a real organisation.

Sample job advertisement

Field	Test information
Position	Remote Data Entry Assistant
Advertised employer	Northstar Digital Careers (Fictional)
Location	Remote — Kenya
Advertised monthly pay	KES 85,000
Contact email	recruitment@example.invalid
Advertisement reference	TEST-JOB-2026-001

Message shown to the applicant (fictional)

“Congratulations. You have been shortlisted for the Remote Data Entry Assistant position. To activate your interview profile, send a refundable processing fee of KES 2,500 using the payment instructions provided by our recruitment agent. Payment must be made before the interview slot can be confirmed.”

Why this advertisement is being reported

The message requests an upfront payment as a condition for progressing to an interview. The applicant wants the platform administrator to review the payment request and verify whether the advertised employer and vacancy are genuine.

Test-only notes

This PDF is a fabricated example created solely to test AjiraSafe's optional evidence-upload and administrator-download workflow. It contains no real person's personal information, no real company details and no genuine payment destination.
